

# MOBILE BAR EXPERIENCES

More than a drinks service, our bars help to get  
guests talking and creating memories.

# HOW THEY WORK

## BOOKING

Get in touch to check what dates and times are available.

A dedicated event co-ordinator will discuss packages, drink options and extras with you.

## DISCUSS

Your mixologist will get in touch prior to the event to discuss and confirm the finer details of the event such as cocktail selection, how we will deal with special requests and ultimately find out how we can make your event perfect.

## TIME TO SHAKE

On the day, the mixologist will arrive with enough time to setup, prior to your agreed start time.

You don't need to supply anything, but access to a sink and refuse bin post-event would be great.

The format of the event, position of the bar and order of the cocktails will be agreed prior.

This is a typical event flow, but we can provide completely bespoke virtual events. Get in touch to learn more.

# WHAT WE PROVIDE

## An experience

Above everything else, we try and provide your guests with an experience they won't forget. The cocktails taste great, but they also help bring people together, spark conversations and create memories.

## Ingredients

Our cocktails feature ingredients such as preserves, syrups, fruit purees and even spices. We can cater for almost every dietary restriction and specialise in no-alcohol variations for all cocktails.

## Equipment

Our mixologists are equipped with professional equipment and typically do not need access to power.

## So what is not included?

Unless agreed by prior arrangement we are not able to sell additional drinks on the night or operate a cash bar.
